More info to come as plans develop!

2021 Dues Vacation

The Mavericks officers have discussed and decided since we are STILL in this pandemic and haven't been able to have rallies, the dues paid for 20-21 will be extended to March 31, 2022. Our \$10 per year isn't very much, but anything to help!

Anyone who joins us during this next year (4/1/21 - 3/31/22) will need to send in their \$10 dues.

Chef à la Mac

Having been stuck at home for an ETERNITY, I've continued to experiment. I made this for dessert the other night. Very tasty... maybe a little TOO tasty.

The bourbon ball is a Southern delicacy, invented by Ruth Hanly Booe of Rebecca Ruth Candy in 1938.

RAIN RAIN GO AWAY

I don't know about you, but we're ready for some traveling again. Especially after the week we had following Quartzsite: an afternoon stuck on the CA 101 with a busted heater hose, a day getting it fixed, WIND-WIND-WIND (thank you *Pineapple Express*) and over 5 inches of rain which kept us grounded for the next 3 days in Paso Robles, CA... (even though we were stuck at one of our favorite [RV parks](#) with over 330 spaces which had just re-opened the day before and had only 5 rigs there the entire time and we had 4 bottles of our favorite [Pinot Noir](#) left and knew if we ran out there was an Albertsons market nearby which has THE LARGEST wine selection ever, and were VERY thankful we weren't stuck an hour south which received over 15 inches of rain during those 3 days... because... we had found another leak in the front corner of the main slide. To top it off, the front passenger side hydraulic leveler has been leaking) We're now getting the entire heater hose replaced with 10 hours of labor and the leveler next week) Yeah... we're ready!

COVID VACCINATION

Last week, both of us received our 2nd COVID vaccination shot. No problems, except for sore arms. I hope all of you are in line to get your shots as well, especially after FMCA https://www.fmca.com/pdfs/covid_info_for_attendees.pdf sent this out prior to the Perry, GA event. I have a feeling that this will be happening more and more before we are able to participate in various RV club events. I was a Boy Scout. So you know what my motto is...

BAGPIPE FACTS

Bagpipes are a woodwind instrument using enclosed reeds fed from a constant reservoir of air in the form of a bag. The Scottish Great Highland bagpipes are the best known examples in the Anglophone world, but people have played bagpipes for centuries throughout large parts of Europe, northern Africa, and western Asia, including Anatolia, the Caucasus, and around the Persian Gulf.

I was going to do something about trumpets, since I'm a trumpet player. I thought Bagpipes would be more more fun!

That's it for now. "Happy trails to you..." You know the rest...
